# What Is Git?

- Git
- Distributed vs Centralized Version Control

- `git config --global user.name "Aditya Patawari"`
- `git config --global user.email "adimania@fedoraproject.org"`

# New Repo

- git init
- git add
- git commit

# Share The Code

- git clone
- git pull
- git push

# Tracing The Culprit

- git blame file-name
- git log
- git diff

# Questions?

Now is your chance :)
